

# Precision Rx Formulary

Welcome to Precision Rx Management's Precision Formulary. A formulary is a list of covered prescription drugs. The Precision Formulary excludes certain drugs in order to reduce the cost of your prescriptions. For every excluded drug there is a preferred alternative available at a lower cost. Please use this formulary drug list when you receive a prescription from your doctor. This formulary list is not intended to imply coverage and may change over time. Please refer to your plan document for detailed information about your drug benefit coverage.

The formulary is organized by categories depending on the type of medical conditions that they are used to treat. Medications are listed as Tier 1 Generic, Tier 2 Preferred Brand, Tier 3 Non-Preferred Brand, and Excluded Products. Medications listed as "Specialty Drugs" are used to treat complex medical conditions that require special handling, administration, and member care management. Depending on your pharmacy benefit design, specialty drugs may be part of a specialty benefit with specific coverage and copay requirements that differ from drugs in Tiers 1 – 3. If you do not have a defined specialty benefit, your copay may be based on whether the drug is Generic or Brand, therefore Tier 1 or Tier 3 copays may apply. Excluded products are not covered by your plan; however, a preferred alternative is available at a lower cost.

Our Pharmacy and Therapeutics Committee (P&T) and Value Assessment Committee (VAC) dedicates many hours to the clinical analysis and evaluation of peer reviewed literature and medical care guidelines to determine a drug's safety and efficacy. After this rigorous clinical evaluation, the committee weighs the financial implications of a drug compared to other similar drugs and selects appropriate Tier placement based on the drugs' safety, efficacy and cost- effectiveness. Please note all drugs on the Formulary Drug List are subjected to periodic review and amendment without notice.

Drug exception requests must have clinical information submitted by a prescriber. For excluded drug products, members or prescribers may request a medical exception review if the prescriber feels that the formulary does not adequately cover your clinical needs. The request may be initiated by the member or the prescriber. If the request is initiated by the member via a telephone request to our offices, Precision will contact your physician for the necessary clinical information to support this exception. If the request is initiated by your prescriber, he or she may submit it by fax, phone, or mail. They will be required to submit supporting clinical documentation to justify Precision Rx's approval.

For the most up-to-date Formulary Drug list visit our website at [precisionrxpro.com](http://precisionrxpro.com).

TIER		DESCRIPTION
1	Generics	
2	Preferred Brands	
3	Non-Preferred Brands	
TYPE		DESCRIPTION
QL	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
ST	Step Therapy	In some cases, you may be required to first try certain drugs to treat your medical condition before you move up a “step” to other drug options.
GL	Gender Limit	This prescription drug is restricted for a single gender.
AL	Age Limit	This prescription drug may only be covered if you meet the minimum or maximum age limit.
C	Custom	This drug has unique restrictions.
S	Specialty Drug	Specialty drugs are high-cost drugs used to treat complex or rare conditions. Some examples of the diseases include; multiple sclerosis, rheumatoid arthritis, hepatitis C, and hemophilia.
MED	Medical Drug	This medication is not on our drug list. Click on the THERAPEUTIC CLASS or sub class to find covered alternative medications. If you have questions, please contact member services.
PR	Preventive Medication	Preventive health drugs can help prevent, treat, and manage several health concerns that can lead to serious illness or complications in the future. The copays for these products may vary so check with your plan for further information.
HCR	Health Care Reform Products	The Affordable Care Act (ACA) requires certain preventive generic products to be covered at zero dollar copay. This does not include plans that are grandfathered.
NTI	Narrow Therapeutic Indicator	NTI products may have to be monitored by your doctor or pharmacist more frequently because small changes in doses can have harmful impacts.

<b>PS</b>	Preferred Specialty	Preferred Specialty.
<b>PA</b>	PA Applies	Your provider is required to get prior authorization before you fill your prescription, which ensures appropriate use of the selected drug. Without prior approval, we may not cover this drug.
<b>B4G</b>	Brand For Generic	Brand products that would bypass the DAW penalty. The strategy prefers brands over generics.
<b>HCG</b>	High Cost Generic	High Cost Generic.
<b>MVB</b>	Minimal Value Brand	Minimal Value Brand.
<b>MVG</b>	Minimal Value Generic	Minimal Value Generic.
<b>BSP</b>	Benefit Shift Program	Benefit Shift Program.
<b>SBA</b>	Select Brand Alternative	Select Brand Alternative
<b>PS1</b>	Preferred 1st line	
<b>PS2</b>	Preferred 2nd line
